In accordance with Chapter 20.68 of the Merced City Zoning Ordinance, the Merced City Site Plan Review Committee considered and administratively approved Site Plan Review Application #415 on November 16, 2017, submitted by Ice House America, applicant for Hamid Yahya, property owner, to install a 136-square-foot ice kiosk within the Choice Food Market parking lot located at 836 T Street, within a Neighborhood Commercial (C-N) Zone. Said property being more particularly described as Lots 7 and 8 from Block 347 as shown on the map entitled "Map of Resubdivision of Part of Adjoining Acreage Property in City of Merced" recorded in Volume 10, Page 26 of Merced County Records; also known as Assessor's Parcel Number (APN) 032-121-002.

WHEREAS, the proposal is exempt from the California Environmental Quality Act (CEQA), and is in accordance with Section 15301 (a) (Exhibit D); and,

WHEREAS, the Merced City Site Plan Review Committee makes the following Findings:

A) The proposal complies with the City of Merced General Plan designation of Neighborhood Commercial (CN) and the Zoning classification of Neighborhood Commercial (C-N).

B) The subject site has conditional use permit approval to operate as a convenience market with alcohol sales for offsite consumption (CUP #1170). The proposed outdoor ice kiosk is considered an ancillary use to the convenience market.

C) As shown on Exhibit B, the ice kiosk (6'8" x 19') would be located within the northeast quadrant of the parcel, about 5 feet from the eastern property line.

D) The proposed location of the ice kiosk would not block any driving aisles, fire lanes, fire hydrants, or building exits.

E) The applicant is proposing to provide water services, sewer services, and electric utilities to the ice kiosk (Condition #8).

F) The parking spaces to the west of the ice kiosk would be redesigned to meet the City's Engineering Parking Lot Standards and ADA requirements (Condition #13).

G) A Public Hearing Notice was circulated in the newspaper and mailed to adjacent residential property owners at least 10 days before the public hearing, in accordance with MMC Section 20.68.050.E and MMC Chapter 20.70. Staff did not receive any public comments for this project, as of the time that this report was prepared (11/8/2017).

H) No modifications are being proposed for the interior or exterior of the convenience market building. Such modifications could require building permit approval.

NOW, THEREFORE, BE IT RESOLVED that the Merced City Site Plan Review Committee does approve Site Plan Review Application #415, subject to the following conditions:

1) The proposed project shall be constructed/designed as shown on Exhibit B (site plan), Exhibit C (conceptual rendering), and as modified by the conditions of approval within this resolution.

2) All conditions contained in Site Plan Review #79-1 – Amended ("Standard Conditions for Site Plan Review Application") shall apply.

3) The Project shall comply with all relevant conditions set forth in Planning Commission Resolution #2113 for Conditional Use Permit #779 and Planning Commission Resolution #3004 for Conditional Use Permit #1170 (including Condition #10 regarding installing "No Loitering" signs and Condition #11 regarding alcohol advertisements) previously approved for this site.

4) All other applicable codes, ordinances, policies, etc., adopted by the City of Merced shall apply including, but not limited to, accessibility compliance.

5) The developer/applicant shall indemnify, protect, defend (with counsel selected by the City), and hold harmless the City, and any agency or instrumentality thereof, and any officers, officials, employees, or agents thereof, from any and all claims, actions, suits, proceedings, or judgments against the City, or any agency or instrumentality thereof, and any officers, officials, employees, or agents thereof to attack, set aside, void, or annul, an approval of the City, or any agency or instrumentality thereof, advisory agency, appeal board, or legislative body, including actions approved by the voters of the City, concerning the project and the approvals granted herein. Furthermore, developer/applicant shall indemnify, protect, defend, and hold harmless the City, or any agency or instrumentality thereof, against any and all claims, actions, suits, proceedings, or judgments against any governmental entity in which developer/applicant's project is subject to that other governmental entity's approval and a condition of such approval is that the City indemnify and defend (with counsel selected by the City) such governmental

entity. City shall promptly notify the developer/applicant of any claim, action, or proceeding. City shall further cooperate fully in the defense of the action. Should the City fail to either promptly notify or cooperate fully, the developer/applicant shall not thereafter be responsible to indemnify, defend, protect, or hold harmless the City, any agency or instrumentality thereof, or any of its officers, officials, employees, or agents.

6) The developer/applicant shall construct and operate the project in strict compliance with the approvals granted herein, City standards, laws, and ordinances, and in compliance with all State and Federal laws, regulations, and standards. In the event of a conflict between City laws and standards and a State or Federal law, regulation, or standard, the stricter or higher standard shall control.

7) The premises shall remain clean and free of debris and graffiti at all times. Any damaged materials to the kiosk shall be replaced by matching materials and paint colors.

8) Any proposed sewer and water utilities for the kiosk shall connect to the existing domestic utility lines on this site.

9) A licensed architect or engineer shall submit a building permit application for the installation of the kiosk and all related improvements on this site. Detailed plans shall be submitted that depict power and water supply connections, as well as drainage line locations and connections.

10) The applicant shall submit an official signage plan and colored elevations for the kiosk during the building permit stage. These plans are subject to approval from the Planning Department. Signage used for the ice kiosk shall count towards the maximum amount of signage allowed for the Choice Food Market.

11) The applicant shall provide outdoor lighting with a minimum 15-foot radius of illumination around the ice kiosk. Lighting may be placed on either the building wall, ice kiosk, or a parking lot light post. Details to be worked out with Planning staff during the building permit stage.

12) All parking spaces located within this parcel shall be re-painted with a fresh coat of paint.

13) The parking lot layout shall comply with all applicable City Engineering Standards and ADA requirements. Any missing parking lot trees shall be provided at a ratio of one tree for every six parking spaces within this parcel (APN 032-121-002). These trees shall be installed per the City's Parking Lot Landscape Standards, shall be a minimum of 15-gallons, and be of a type that provides a 30-foot minimum canopy at maturity (trees shall be selected from the City's approved tree list).

14) A temporary sign permit shall be obtained prior to installing any temporary banners. Temporary freestanding signs (i.e. A-frame signs, feathered signs, or sandwich boards) are not allowed.

15) The proprietor and/or successors in interest and management shall be prohibited from advertising or promoting beer & wine and/or distilled spirits on the ice kiosk.

16) Any existing beer and wine advertisements on the Choice Food Market building walls or windows are prohibited per CUP #1170, and shall be removed prior to issuance of a building permit for the ice kiosk.

17) The applicant shall comply with all City of Merced business licensing requirements and all requirements of the Merced County Health Department.

If there are any questions concerning these conditions and recommendations, please contact Francisco Mendoza-Gonzalez at (209) 385-6858.
