SCOPE & BUDGET CHANGE/PHASE AMENDMENT

| From: Stephanie Gillaspy, Project Manager | Date: March 17, 2025 |
| Subject: Amendment | |

SCOPE COMMENTS:

The original scope for the City Airport PFAS investigation project based on the Regional Water Quality Control Board (RWQCB) letter dated June 14, 2024 stated the new monitoring wells would be dual nested (two monitoring wells per hole). The scope and proposal dated June 28, 2024 by Provost & Pritchard included the costs for dual nested monitoring wells. The monitoring well installation workplan detailed dual nested monitoring wells. Upon approval of the workplan by the RWQCB on February 24, 2025, the dual nested monitoring wells were requested to be clustered wells. This results in 8 holes as opposed to 4 holes. The drillers associated cost increase is \$15,000.

A scope and budget amendment is hereby submitted for Provost & Pritchard Consulting Group to incorporate the following changes:

CITY OF MERCED AIRPORT PFAS INVESTIGATION, JOB NO. 1511-24-003, PHASE MWIS – AMENDMENT

Change in task -

1. Change monitoring well installation from dual completion to clustered monitoring wells.
2. Project management and administration

The signature below hereby authorizes a change in the time and materials budget for Phase MWIS:

| BUDGET AMENDMENT | |
|--|-----------|
| Current Phase Budget: | \$142,000 |
| Incremental Fees for Additional Scope: | \$15,000 |
| New Phase Budget: | \$157,000 |

SCHEDULE

The schedule will not change. The change in the scope is how the monitoring wells will be installed.
