

**The California Environmental Quality Act  
(CEQA) Section 15162 Findings:**

**Application: Vesting Tentative Subdivision Map #1327 - Site Plan Review #530 – Environmental Review#23-34**

**Assessor Parcel Number or Location:** Assessor's Parcel Number (APN): 206-010-010

**Previous Initial Study/EIR Reference:** This site was previously reviewed through Initial Study #01-32, resulting in a Mitigated Negative Declaration. The current proposal to construct a residential subdivision is consistent with the previous environmental review and the project remains in conformance with the City's *Merced Vision 2030 General Plan*.

**Original Project Date:** Initial Study #01-32, resulting in a Mitigated Negative Declaration, adopted by the Merced City Council on December 2, 2002.

**Section A - Previous Studies**

1. Substantial changes are proposed in the project that will require major revisions of the previous project EIR or Negative Declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects?

Yes	No
	X

**Comment/Finding:** The density proposed for the residential subdivision is consistent with the previous environmental review. This site was identified in the previous environmental review as high density residential allowing between 7 and 30 dwelling units per acre. The proposed apartment complex of this scale is considered consistent with the Village Residential density at 13.73 dwelling units per acre, thus, the project remains consistent with the previous environmental review.

2. Substantial changes have occurred with respect to the circumstances under which the project is undertaken that will require major revisions of the previous EIR or Negative Declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects?

Yes	No
	X

**Comment/Finding:** There have been no changes in the circumstances under which the project is undertaken that would require major revisions in the previous Mitigated Negative Declaration. There are no new significant environmental effects or substantial increases in the severity of previously identified environmental effects, and the area under consideration remains the same area previously evaluated.

3. New information of substantial importance that was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the Negative Declaration was adopted, has been revealed? (If "Yes" is checked, go to Section "B" below)

Yes	No
	X

**Comment/Finding:** There is no new information of substantial importance that was not known and could not have been known with the reasonable diligence at the time the previous Mitigated Negative Declaration was adopted.

### Section B - New Information

A) The project will have one or more significant effects not discussed in the previous EIR or negative declaration.

Yes	No
<input type="checkbox"/>	<input checked="" type="checkbox"/>

B) Significant effects previously examined will be substantially more severe than shown in the previous EIR.

Yes	No
<input type="checkbox"/>	<input checked="" type="checkbox"/>

C) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative.

Yes	No
<input type="checkbox"/>	<input checked="" type="checkbox"/>

D) Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

Yes	No
<input type="checkbox"/>	<input checked="" type="checkbox"/>

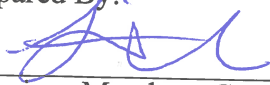

**Comment/Finding:** All previously identified mitigation measures will be enforced with this project including payment of Public Facility Impact Fees. Therefore, the resulting impacts are no greater than those previously analyzed and the previously imposed mitigation measures remain sufficient to address all impacts from this project.

**On the basis of this evaluation, in accordance with the requirements of Section 15162 of the CEQA Guidelines:**

- |                                     |  |
|-------------------------------------|--|
| <input type="checkbox"/>            | 1. It is found that subsequent negative declaration will need to be prepared.  |
| <input type="checkbox"/>            | 2. It is found that an addendum Negative Declaration will need to be prepared. |
| <input type="checkbox"/>            | 3. That a subsequent EIR will need to be prepared.                             |
| <input checked="" type="checkbox"/> | 4. No further documentation is required.                                       |
