

City of Merced

RQ#: 24-31

Citizen Action Request Form: Traffic Committee

Contact Person: LaRae Demorest Day Phone: [REDACTED]

Email Address: [REDACTED]

Address: [REDACTED] Today's Date: 4/15/24

Location of Concern (map attachments and photographs are encouraged):

1) MLK and west 27th, 2) West 23rd at 'H' and 'I'

There is no stop sign, yield sign, or any dip that would make it obvious which person would have right of way from the get go on these corners. 1) MLK and west 27th, 2) West 23rd at 'H' and 'I'

1) West 27th and MLK have no signage for right of way. A smart driver would stop when they see nothing - that happens less often than not. This is a concerning area since it is a high vehicle traffic area of parents and kids in the mornings and afternoons since John Muir drop off is at the end of MLK and west 26th. More often than not I do not see traffic, even the short school school bus, in either direction on MLK and 27th slow down or stop to ensure it is safe and clear to cross.

2) West 23rd at 'H' and 'I' street also have no signage. I live on west 23rd and come out of an alley where my garage is on 'I' street to then cross 23rd to take my son to and from school. There is no sign at either corner to yield or stop. I've seen at least one accident here and many close calls the almost 8 years I have lived here.

If I was one of those individuals that did not stop at either of these intersections (again, no signage for right of way), then I would have had one too many close calls because others do not slow down or stop.
