	67	142	0	54	61	

Staff Structure to Support Program	
Employed Staff	91 Throughout All Merced Sites
Interns	5 Throughout All Merced Sites (Work Net)
Volunteers	12 McCombs Youth Center

Success Narrative- please describe any progress your program has experienced over the reporting period. This could include experiences with member recruitment, facility needs, partnerships formed, funding streams acquired, the addition of key staff or volunteers, or success stories of program participants. This narrative should be reflective of the data presented on page 1.

During the month of June here at BGC we have experienced many positives. One of our biggest accomplishment during this period is our partnership with Bank of America. Through this partnership we have curated opportunities for 11 youth volunteers seeking experience within this career sector, these individuals are sponsored by Bank of America. In the month of June we were able to interview, train, and allowed the volunteers to begin working on at our main site. This summer we have also seen a tremendous growth within our program. The Boys and Girls club has expanded throughout Merced, to 4 new school sites through our partnership with Merced City School District. This opportunity with Merced City School District has allowed us to expand job opportunities to interested individuals and provide new specialty programs and opportunities for former and new Boys and Girls club member to experience.

Another significant highlight of our programming that we have prepared and added is our Hoops Clinic. With fundings through the Dignity Health, we were able to create a structured basketball program at multiple sites and draw in new BGC members who were only interested in playing basketball for us. With this funding, we are planning a big "end-of-summer" tournament between our different sites.

Barrier Narrative- please describe any barriers or modifications required over the reporting period. This can include any partnerships or funding lost, the loss of key staff or volunteers, or additional internal or external complications. This narrative should be reflective of the data presented on page 1.

One significant loss that we have noticed is the decline in the number of Summer Attendees at our main site this summer. Although total attendance overall has drastically increase, the decline of attendees at the McCombs Youth Center is attributed to the opening of the new Satellite Sites in Merced; this calculated assumption derives from seeing many former BGC members attending one of our four Satellite Sites (Peterson, Stowell, Rivera, and Sheehy).

Program Photos- Please ensure that any photographs used are authorized by a photo release approving the use of the participants image in program materials such as this report.
