DISCUSSION

The U.S. Department of Justice (DOJ) Edward Byrne Memorial Justice Assistance Grant (JAG) is the primary provider of federal criminal justice funding to state and local jurisdictions. JAG funds support all components of the criminal justice system, from multijurisdictional drug and gang task forces to crime prevention and domestic violence

programs, courts, corrections, treatment, and justice information sharing initiatives. JAG funded projects may address crime through the provision of services directly to individual and/or communities and by improving the effectiveness and efficiency of criminal justice systems, processes, and procedures.

The JAG program solicits applications from eligible tribes, and units of local government for local initiatives, technical assistance, training, personnel, equipment, supplies, contractual support, and information systems for criminal justice, as well as research and evaluation activities that will improve or enhance the following areas:

- Law enforcement programs
- Prosecution and court programs
- Prevention and education programs
- Corrections and community corrections programs
- Drug treatment and enforcement programs
- Planning, evaluation, and technology improvement programs
- Crime victim and witness programs (other than compensation)

JAG funded projects may address crime through the provision of services directly to individuals and/or communities and by improving the effectiveness and efficiency of criminal justice systems, processes, and procedures.

The Merced Police Department submitted a timely application to receive grant funding for the 2022 JAG grant program. The City of Merced was eligible to request funding up to the amount of \$42,866. This amount is established by the DOJ. There is no match requirement on this grant award.

JAG funds were requested to spend \$42,866 on all-terrain vehicle and trailer for the Bomb Unit. This price includes freight, set-up, and the necessary parts to equip the vehicle as a part of the MPD fleet of vehicles. This vehicle will be used by the Bomb Unit when the need arises such as around trees, crops, along canals and creeks, and other awkward terrain and environments.

The Bomb Unit of the Merced Police Department is FBI Certified. The unit is 1 of 300 in the United States of America. The six members on the unit are 6 of 3,500 technicians in the United States of America. Our Bomb Unit services all of Merced County (1,979 square miles) and neighboring Mariposa County (1,463 square miles) which includes Yosemite National Park. This service area is over 3,000 square miles and over 100,000 citizens.

The Bomb Unit trains twenty-four hours each month meeting two times per month. Over the past five years, the average number of calls outs is ten. The Bomb Unit is part of the MPD's Critical Response Unit that also includes SWAT, Hostage Negotiations Team, and the Unmanned Aerial Systems Unit.

The grant requires that the application and subsequent award be made available in a

public meeting and that the public has an opportunity to comment on the acceptance of the funding before it is accepted by the City. Notification was given to City Council over 30 days ago on the award notification.
