SCOPE OF SERVICES

I. IRRIGATION - GENERAL

Irrigation shall be accomplished by the use of automatic or manual sprinkler systems where available and operable. Failure of an existing system to provide full and adequate coverage shall not relieve the contractor of the responsibility to provide proper coverage of all areas. Providing any supplementary hoses, sprinklers, nozzles, etc., necessary to accomplish full coverage shall be the contractor's responsibility.

A. Maintenance

The contractor shall maintain all sprinkler systems in such a way as to give proper coverage and full working capacity, making necessary adjustments to prevent excessive water run-off into streets or other areas not intended to be irrigated. Care shall be taken to prevent wasting water, causing soil erosion, or allowing seepage into existing underground improvements or structures.

The contractor shall, at no cost to the City, keep controller or valve boxes free of dirt and debris; repair, replace, clean, adjust, straighten, raise, or lower the following sprinkler system components as it relates to maintenance of the landscape areas:

1. Sprinkler heads;
2. Sprinkler caps;
3. Sprinkler head risers;
4. Valve covers;
5. Valve boxes;
6. Valve box lids, including electrical pull boxes and lids;
7. Underground electric connectors inside valve boxes;
8. Quick coupler valves and caps;
9. Hose bibs.

B. Inspection

The contractor shall inspect all areas covered by an automatic irrigation system for any malfunction during each schedule service of each District. Approximately thirty (30) days prior to the termination of the contract, a comprehensive test of all irrigation systems shall be made by a Public Works Department representative. Any repairs deemed the contractor's responsibility shall be made by the contractor prior to the end of the contract period.

If repairs made are not to the satisfaction of the Director of Public Works or his designee, deductions shall be made in the final contract payment to cover the cost of eliminating the discrepancies determined by the Director of Public Works or his designee.

EXHIBIT A

C. Repairs

Irrigation systems which are damaged or altered in any way as a result of work performed under this contract shall be repaired or replaced in kind and in an approved manner by the contractor.

Repairs shall be made immediately after damage or alteration occurs, unless otherwise directed. Repairs made as a result of theft, vandalism or an act of God shall be performed by the City.

Winterization – Contractor shall winterize all exposed piping and back flow prevention devices to prevent freeze damage. All damage to back flow devices caused by freezing will be the contractor responsibility to repair or replace.

Repairs not made, or not made to the satisfaction of the Director of Public Works or his designee, will be done by others and billed to the contractor.

D. Irrigation to be accomplished as follows:

Turf and Groundcover - Turf and groundcover areas to be watered, as required, to maintain horticulturally acceptable growth and color, as well as promote deep root growth. Daily shallow water applications should be avoided where possible in favor of deeper water applications. Water to turf and groundcover areas to generally be applied between 3:00 a.m. and 7:00a.m. where possible to lower the risk of fungus in cool season turf.

Banks and Slopes - Sloped landscape areas to be irrigated Monday through Friday as required to maintain horticulturally acceptable growth and color. Best irrigation practice is to promote deep root growth with a minimum of run-off.

Shrubs and Trees - Shrubs and trees to be irrigated as needed to maintain horticulturally acceptable growth and color.

Irrigation rates to be adjusted according to shrubs or tree types and seasonal weather conditions. Deep watering for root growth is encouraged, and surface run-off to be kept at a minimum.

Newly Planted Trees, Shrubs, Groundcover, and Turf - All newly planted areas to receive special attention until plants are established. Adequate water to be applied to promote normal, healthy growth. Watering basins around newly planted shrubs and trees to be used during establishment period.

EXHIBIT A

All landscaping within the specified maintenance areas including lawns, shrubs, groundcover beds, planters, and tree wells shall be kept free of all weeds at all times. Complete removal of all weed growth is to be accomplished every thirty (30) days on a continuing basis, not just once each thirty (30) days. Weeds may be controlled by mechanical methods, or chemical methods at the discretion of the contractor.

A. **Use of Chemical Pesticides for Weed Control**

The contractor shall abide by all rules and regulations of the California Department of Pesticide Regulation, Department of Health, Merced County Agricultural Commissioner, and Department of Industrial Relations regarding the safe application of herbicides under this contract. Pruning is to be done in a manner which promotes the plant's natural growth characteristics. Hedging, shearing, or other sever pruning will not be allowed except with prior approval.

Plant growth is to be kept to prevent its encroachment into walks, passageways, curbs, and streets. Clear view of traffic signs and intersections is to be maintained at all times. Plant growth shall not exceed height of block walls.

All dead, dying, or damaged branches shall be removed immediately. All cuts shall be made cleanly with no stubs or projections remaining.

A. **Trees**

Newly planted trees are to be staked, pruned and shaped to promote their eventual development into strong, healthy representatives of their species. Until young trees are strong enough to stand alone, they shall be flex-tied between two approved 2-inch by 2-inch by 8-foot treated tree stakes. Split plastic hose or black tire casing held in place by 12-gauge wire shall be used to secure the young trees. Tree ties to be inspected often for signs of girdling or abrasion.

The contractor shall bring to the Director of Public Works or his designee's attention within 24 hours of any tree which shows signs of root heaving, leaning, having hanger limbs, or in some manner constituting a safety hazard.

- D. Where there is a difference in value between the tree lost and the replacement tree, the difference will be deducted from the contract payment.

The value will be deducted from the contract payment. The value will be determined using the latest I.S.A. guidelines.

Any plant damaged or lost through theft, vehicular damage, act of God, or other mysterious sources not the responsibility of the contractor, shall be replaced by the City.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Merced (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Merced

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to cityclerk@cityofmerced.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Merced

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

- i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;
- ii. send us an email to cityclerk@cityofmerced.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: <https://support.docusign.com/guides/signer-guide-signing-system-requirements>.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:
