38.PAYMENT

A. Terms

Payment terms for this contract are net forty-five (45) days. Payment will be made in accordance with the provisions of the California Prompt Payment Act, Government Code Section 927, et seq. Unless expressly exempted by statute, the Act requires State departments to pay properly submitted, undisputed invoices not more than forty-five (45) days after the date of acceptance of goods, performance of services, or receipt of an undisputed invoice, whichever is later.

B. CAL-Card Use

State departments may use the CAL-Card for the payment of invoices. Use of the CAL-Card requires the execution of a Purchasing Authority Purchase Order (Std. 65) in accordance with Section 16, Purchase Execution and must include all required documentation applicable to the purchase.

The CAL-Card is a payment mechanism, not a procurement approach and, therefore, does not relieve State departments from adhering to all procurement laws, regulations, policies, procedures, and best practices, including those discussed in the State Contracting Manual (SCM) Volume 2. This includes but is not limited to the application of all sales and use tax laws, rules, and policies as applicable to the purchase.

C. State Financial Marketplace

State departments reserve the right to select the form of payment for all procurements, be it either an outright purchase with payment rendered directly by the State, or a financing/lease-purchase or operating lease via the State Financial Marketplace (GS \$Mart and/or Lease \$Mart). If payment is via the financial marketplace, the Contractor will invoice the State department and the State department will approve the invoice and the selected Lender/Lessor for all product listed on the State's procurement document will pay the Contractor on behalf of the State.

D. Payee Data Record

Each State department's accounting office must have a copy of the Contractor's Payee Data Record (Std. 204) in order to process payments. State departments should forward a copy of the Std. 204 to their accounting offices. Without the Std. 204, payment may be unnecessarily delayed. State departments should contact the Contractor for copies of the Payee Data Record.

39. CAL-CARD INVOICING

All CAL-Card invoices are to be processed separately from other payment methods and include the elements identified in Section 37, Invoicing. CAL-Card invoices shall be submitted to the CAL-Card account holder. The total invoice amount for each CAL-Card order must reflect a zero (0) balance due or credit, if applicable, and state "paid by CAL-Card".

This website contains additional information regarding DGS-PD's CAL-Card program.

Substitute products will be comparable to or better than the products removed. In instances where it is necessary for the Contractor to return the products to the factory, the Contractor will be responsible for all costs of the products from the time it leaves the ordering agency's site until it is returned to the site in good operating condition.

Only new standard parts or parts equal in performance to new parts will be used in effecting repairs. Parts that have been replaced will become the property of the Contractor except in instances where the ordering agency chooses to keep the hard drives. Replacement parts installed will become the property of the ordering agency.

All operating system software and firmware will be considered an integral component of the equipment and the Contractor will respond to all requests for warranty service for any failure.

Warranty services during the warranty period will not include electrical work external to the products, the furnishing of supplies, or adding or removing accessories, attachments, or other devices not provided under this contract. Contractors must use new products, parts, and components for all new equipment purchased by the State. The Contractor may use parts that are equal in performance to new parts for warranty replacement repair parts only as long as it does not violate the manufacturer's warranty.

Consequently, when executing purchase documents pursuant to this contract, it is not necessary for State departments operating under statewide contract purchasing authority to request the completion of State required certifications, a Bidder Declaration document, or perform additional CUF analysis. The State department should make a notation of this within their procurement file.

Exception: It is the responsibility of ordering departments to confirm CUF when value-added services are acquired by an ordering department and performed by certified SB/DVBE subcontractors consistent with commitments identified in the table above.

49. TAKE-BACK/TRADE IN

Before any Take-Back/Trade-In can occur, State departments must obtain approval for discarding their IT equipment from the DGS Surplus Property and Reutilization Program. In accordance with the State Administrative Manual (SAM), Chapter 5900, Information Technology-Disposal of IT Equipment, each State department must explore the reutilization of surplus IT equipment prior to requesting approval for recycling or attempting to use the equipment as a credit toward the purchase of new equipment.

The Take-Back service is for similar equipment, including other OEM equipment. This service is for non-working equipment.

It is not mandatory that the ordering agency use the Take-Back/Trade-In service offered. The equipment returned as part of the Take-Back/Trade-In service shall be environmentally responsibly managed. To the greatest extent feasible, the equipment is to be refurbished for resale or recycled.

GDS has partnered with Prism Electronics, an R2 Certified, ISO14001 and ISO45001, electronics recycling company in Morgan Hill, CA to achieve a secure and zero landfill e-waste recycling process for their clients' retired electronic assets and for their obsolete IT assets. Equipment will be picked up by GDS employees and transported to either GDS or PRISM Electronics for processing.
