The City of Merced is promoting storm water pollution prevention through public outreach and the Storm Water Ordinance. The Merced Municipal Code 15.50.020 -Purpose and Intent states,

A. The purpose of this chapter is to protect and promote the health, safety, and general welfare of the citizens of City of Merced by controlling non-storm water discharges to the storm water conveyance system from spills, dumping, or disposal of materials other than storm water, and by reducing pollutants in urban storm water discharges to the maximum extent practicable.

B. This chapter is intended to assist in the protection and enhancement of the water quality of watercourses, water bodies, and wetlands in a manner pursuant to and consistent with the Federal Clean Water Act (33 U.S.C. Sections 1251 et seq.) and any subsequent amendments thereto, by reducing pollutants in storm water discharges to the maximum extent practicable and by prohibiting nonstorm water discharges into the storm drain

Anything that spills or lands on the ground of areas such as streets, sidewalks, drainage channels, or parking lots of the City of Merced eventually becomes storm water pollution. Everything that flows into a storm drain, goes directly to our creeks and rivers, untreated. This means aquatic life can die off and areas for water recreation become unsafe for human enjoyment.

Mobile Food Trucks play a major role in minimizing storm water pollution, because of the mobile aspect of the business. The following are important responsibilities of Food Trucks to aid in the protection of our environment, as well as, the health, safety and general welfare of the citizens of Merced:

Visit commissary DAILY for disposing of fats, oils and grease

keep logs

Clean spills using dry methods, absorbents

Clean kitchen equipment indoors or at wash facility with an oil

separator or a grease interceptor

Clean mobile food truck at an approved w

drainage ditches

Do not use water to clean up spills

Do not clean kitchen equipment outd

where wastewater could impact the storm drain

Do not clean mobile food truck
