Who We Are

Sater Oil is an independent gasoline developer and marketer in the State of California. The company's president, Mike Sater, started his business in the 1970's as an ARCO am/pm franchisee in Chino, CA. Sater Oil has also experience with most Major Oil Companies, having operated gas stations as Mobil, USA and Independent. Sater Oil now owns and operates 31 locations in the Central Valley and Southern California. Sater Oil objectives are to purchase, sale, operate gas stations and to provide consultation services to people and companies who would benefit from Sater Oil's Staff knowledge and experience.

Sater Oil's straightforward approach, extensive experience and prompt execution in the business have earned us credibility with our partners, customers and vendors. Over the years Independent Operators, franchisees and Oil Company Executives looked to Sater Oil for advice and input on viability of existing stores, assistance in development of new stations and operational improvements. In this competitive environment, Sater Oil has consistently out-performed its own expectations from their first store in Chino, CA to its latest development of the new state of the art ARCO am/pm with carwash in the City Moreno Valley CA.
