SUBJECT: Fee Estimates For the Annual Work Plan
Third and Fourth Quarter 2022 and the
First and Second Quarter 2023
For PCE Project including 1-Hour R Street Site, Parkway, Sunshine, Bel
Air, Simpson's, and Merced Laundry Dry Cleaners, City of Merced

Dear Mr. Angulo,

At your request, Provost & Prichard Consulting Group (P&P) is providing you with our fee estimate to provide continuing remedial support including continued operation, maintenance (O&M) at the Parkway site of the SVE system and the recirculation well and continuing remedial support and operation and maintenance (O&M) at the Sunshine site. Costs are based solely on the tasks listed in the City's Annual PCE work plan submitted to the RWQCB. Additional work scopes can be conducted as requested.

The recirculation well installed at the Parkway site was operated as a pilot program since July 2021. Analysis of the monitoring data from the site indicates that the recirculation well has improved the removal of PCE significantly over the previous ten or more years as shown of the attached removal graphs.

Therefore, the proposed work in 2022/2023 at the Parkway site continued operation of the SVE and recirculation well for the period of one additional year will be conducted with monthly monitoring and periodic well field balancing for increase PCE removal. This recommendation is based on a positive effect of the recirculation well at Parkway. Continued enhanced operation of the recirculation well (RCW-1) at Parkway is planned. After six months of data, PCE removal has increased substantially. Additional monitoring and sampling of RCW-1 and surrounding monitoring wells is planned to continue to increase the removal of PCE from groundwater.

The PCE impacts at the Sunshine site is widespread and not all impacted wells are connected the SVE system. Therefore, the proposed work expected in 2022/2023 includes the SVE system connection of the groundwater monitoring well S46-D-3 at Sunshine.

This project Fee Estimate is based on our 2022 Fee Schedule (also attached).

LIMITATIONS

P&P offers various levels of investigative, engineering and design services to suit the varying needs of our Clients. Although risk can never be eliminated, more detailed and extensive investigations yield more information, which help understand and manage the level of risk. Since detailed investigation and analysis involves greater expenses, our Clients assist with determining levels of services that will provide adequate information for their purposes at acceptable levels of risk. Acceptance of this proposal indicates the City of Merced has reviewed the scope of work and determined you do not need or want a greater level of services than that being proposed. Any exception should be noted and may result in high fees.

Regulations and professional standards applicable to P&P services are continually evolving. Techniques are, by necessity, often new and relatively untried. Different professionals may reasonably adopt different approaches to similar problems. Therefore, no warranty or guarantee, express or implied, will be included in P&P's scope of services.

AUTHORIZATION

If there is a need for any change in the scope of services described in this fee estimate please call us immediately. Changes may require revision of the proposed fee that will be communicated to you.

All information gathered during this project is considered confidential and will be released only upon written authorization of the City of Merced or as required by law.

We appreciate the opportunity to submit this fee estimate and look forward to working with you on this project. If you have any questions or need additional information, please contact Dave or Stephanie in our Clovis Office at (559) 326-1100.
