Location of Concern (map attachments and photographs are encouraged):

End of Rancho Camino @ Granada Ct.

Describe Concerns At This Location:

We have a city sewer lift station at the end of Rancho Camino. The area is closed off by a fence with a gate. There are no parking signs posted on the gate. Residents (including large tow trucks) continue parking in front of the gate and blocking our access to the city facilities. This is especially problematic if we are responding to an after hours pump trouble call and cannot access the gate and our facilities. We'd like to have the curbs on both sides of the street painted red.
