Are you currently serving on a Board or Commission?
If so, please list:

Which Boards would you like to apply for?

Planning Commission

Communication

The City of Merced uses email as a preferred method of communication regarding your application. Is this acceptable to you?

Yes No

If you selected no, please identify how you would like to be contacted:

Interests & Experiences

Tell us about yourself, and why you are applying for this particular Board or Commission:

I am a California native and have lived in Merced for over 15 years, during which time Merced has been met with a variety of challenges, multiple of which impacted our growth and development. My work as a health care provider requires that I find comprehensive, sustainable solutions to multifactorial health problems. I look for the solutions that best meet individual needs, promote well-being and growth, while remaining flexible enough to allow for change. Ideal treatment plans arise out of building rapport with my patient, partnering with other specialists with other skill sets, and collaborating with each individual patient in a meaningful way. I have committed to developing not only competence in this arena, but facility at empathy and observation that is the foundation of truly caring treatment that respects very subtle, often unarticulated individual needs. I believe the effective care and good stewardship of a growing town/community is most effectively served by employing a similar model. I have also traveled extensively around the world, provided health care outside the United States, and worked effectively with people of a variety of ages, cultures, and backgrounds. I consider diversity an asset, not a liability, and view consensus and compromise as winning for all parties. I believe I can be an effective resource in driving change that is needed and sustaining tradition that is grounding. I want all of our children to have the opportunity to enjoy what my kids called "the best town ever to grow up in."

What is your understanding of the roles and responsibilities of this Board or Commission?

From the reading of minutes, acquainting myself with policy language and vocabulary, and the generous volunteering of time from colleagues and friends who work in city planning, my very novice impression of the role and responsibilities of the planning commission is to thoroughly consider all applications for change to the built environment of Merced and provide a recommendation for action for the city council. My understanding is that the planning commission should be an informed, useful resource in many cases, and does in some settings provide final decisions or determinations in regard to application for change, departure from stated zoning and policy.

Do you have experience or special knowledge pertaining to the areas of interest?

As I have cited above, I believe I possess highly transferable skills, but recognize that, as a freshman commissioner, my best and most useful skill may be listening.

Any other comments you would like to add that may assist the City Council in their decision?

I have an interest in seeing high quality development and design in our growing built environment that will optimize our opportunities for imaginative solutions to growth while respecting our history. I would like to productively participate and contribute to that process as we seek to that our home's future is a bright one.
