Subject: RE: Emergency Declaration - G Street Water Transmission Main and Roadway

Good afternoon,

I approve this request for emergency contractual services as the current incident on G Street poses a significant risk to the public's health and safety and the service in question is a water line, which is an operation that directly impacts the public health, welfare and safety of the community at large.

Julio and Venus, please allow a PO to be created under a construction contract with Engineering for services to remedy the waterline break and road damage associated with the event.

In addition, these services are required to be approved by the City Council within 30 days of today per a regular contract for service.

Please let me know if additional information is needed. I can formalize this approval in a memo on Monday if necessary.

Best,

Stephanie Dietz

Subject: Emergency Declaration - G Street Water Transmission Main and Roadway

Hi Stephanie,

I have attached the memorandum requesting an Emergency Declaration for the subject project in accordance with MMC 3.04.330. Should you have any questions, please feel free to contact me at any time.

Thanks,

Mike
