Upon request by an ordering agency, Contractor must complete a [GenAI Reporting and Fact Sheet \(STD 1000\)](#) to identify if their solution or service includes, or makes available, any GenAI including, GenAI from third parties or subcontractors.

During the term of the contract, Contractor must notify the State in writing if their services or any work under this contract includes, or makes available, any previously unreported GenAI technology, including GenAI from third parties or subcontractors. At the direction of the State, Contractor shall discontinue the use of any new or previously undisclosed GenAI technology that materially impacts functionality, risk or contract performance, until use of such GenAI technology has been approved by the State.

Failure to disclose GenAI use to the State and submit the GenAI Reporting and Factsheet (STD 1000) may be considered a breach of the contract by the State at its sole discretion and the State may consider such failure to disclose GenAI and/or failure to submit the GenAI Reporting and Factsheet (STD 1000) as grounds for the immediate termination of the contract. The State is entitled to seek any and all relief to which it may be entitled to as a result of such non-disclosure.

State agencies must retain the STD 1000 and confirmation the purchase may proceed in their procurement file.*

7. ORDERING PROCEDURES

A. Contractor Selection Process

1) State Agencies

State agencies electing to use these agreements must select a Contractor using the Best Value Request for Offer (RFO) process outlined below:

- a) *Develop RFO* – Ordering Agency will develop a RFO which includes the following information, at a minimum:
 - All relevant Ordering Agency contact information necessary for the Contractor to respond to the RFO,
 - A detailed list of the services requested, and
 - Bidder Declaration (GSPD 05-105).
- b) *Solicit Offers* – Ordering Agency shall solicit offers from a minimum of three Contractors.
 - If multiple Contractors are solicited and less than three offers are received, the Ordering Agency must document their file with the reasons why the other Contractors solicited did not respond with an offer.
 - Orders valued less than \$10,000 may be executed without obtaining multiple offers if fair and reasonable pricing has been established and documented within the procurement file.
- c) *Determine Best Value* – Ordering Agency will review all responsive offers and select a Contractor based on best value, with cost as one of the criteria.
- d) *Document Results* – Ordering Agency must document the results of the best value RFO process within the procurement file including, but not limited to, Contractors that were contacted, recap of their offers, how the selection was made and criteria for determining “best value”. Ordering Agencies have the option to use the Best Value Determination Worksheet (available in the State Contracting Manual) or the agency’s own form to document the results.
- e) *Issue Purchase Order* – Ordering Agency will issue purchase order document to the selected Contractor in accordance with Section 7.C (Purchase Order Form and Execution).

2) Local Governmental Agencies

Local governmental agencies may use the contractor selection process described in Section 7.A.1 above or other process in accordance with their procurement policies and regulations.

B. Authorized Resellers

- 1) State-approved Authorized Resellers accept purchase orders and payment from Ordering Agencies for services offered under the specific Contractor's California Cooperative Agreement.
- 2) Ordering Agencies may only use State-approved Authorized Resellers for soliciting offers and order execution when:
 - a) Attachment A indicates Authorized Resellers are available for use under the specific California Cooperative Agreement, and
 - b) The firm is identified on the most current Approved Authorized Reseller listing posted on the State's Cal eProcure website.
- 3) When soliciting offers from Authorized Resellers, state agencies must retain a copy of the Approved Authorized Reseller listing in the procurement file.
- 4) All orders to Authorized Resellers must contain the California Cooperative Agreement number and the Prime Contractor's name as instructed in Attachment A.

C. Purchase Order Form and Execution

All Ordering Agency purchase order documents executed under these agreements must contain the applicable California Cooperative Agreement number as shown in Attachment A.

1) State Agencies

- a) *STD 65 Purchase Documents* – State Agencies not transacting in FI\$Cal must use the Purchasing Authority Purchase Order (STD 65) for purchase execution. An electronic version of the STD 65 is available at the [DGS-PD website](https://www.dgs.ca.gov/PD/Forms) (<https://www.dgs.ca.gov/PD/Forms>).
- b) *FI\$Cal Purchase Documents* – State agencies transacting in FI\$Cal will follow their agency's internal FI\$Cal procurement and contracting procedures.

2) Local Governmental Agencies

Local governmental agencies may use their own purchase order document in lieu of the State's purchase order form.

8. INVOICING AND PAYMENT

A. Payment Terms

Payment terms for these agreements are net forty-five (45) days. Payment will be made in accordance with the provisions of the California Prompt Payment Act, Government Code Section 927, et seq. Unless expressly exempted by statute, the Act requires State agencies to pay properly submitted, undisputed invoices not more than forty-five (45) days after the date of acceptance of goods, performance of services, or receipt of an undisputed invoice, whichever is later.

B. Payee Data Record

State agencies not transacting in FI\$Cal, must obtain a copy of the Payee Data Record (STD 204) to process payments. State agencies forward a copy of the STD 204 to their accounting office. Without the STD 204, payment may be unnecessarily delayed.

C. CAL-Card

Ordering Agencies may use the CAL-Card for the payment of invoices if accepted by the Contractor. Use of the CAL-Card requires the execution of a purchase order document as referenced in Section 7.C (Purchase Order Form) and must include all required documentation applicable to the purchase.

CAL-Card is a payment mechanism, not a procurement approach and, therefore, does not relieve state agencies from adhering to all procurement laws, regulations, policies, procedures, and best practices, including those discussed in the State Contracting Manual. This includes but is not limited to the application of all sales and use tax laws, rules, and policies as applicable to the purchase.

D. Golden State Financial Marketplace (GS \$Mart)

Ordering Agencies may utilize financing available through DGS-PD GS \$Mart program. Program information is available on the [DGS-PD State Financial Marketplace website](https://www.dgs.ca.gov/PD/About/Page-Content/PD-Branch-Intro-Accordion-List/Acquisitions/State-Financial-Marketplace) (<https://www.dgs.ca.gov/PD/About/Page-Content/PD-Branch-Intro-Accordion-List/Acquisitions/State-Financial-Marketplace>).

9. ***CERTIFICATION OF PAYMENT OPTIONS – MILITARY & VETERANS CODE §§999.5 and 999.7(a) (SB588)**

In accordance with the State Contracting Manual, Volume 2, Section 1203.1, State agencies shall require the Contractor to submit a complete and accurate Prime Contractor's Certification – DVBE Subcontracting Report (STD 817) upon acceptance of ordered goods or services for which the Contractor committed to DVBE subcontractor participation.

Upon delivery or completion of ordered goods or services, State agencies shall do the following:

- ***Provide proper withhold notification to prime contractors.***
- ***Withhold \$10,000 or the full amount of the final invoice if less than \$10,000 pending receipt of the complete and accurate STD 817.***
- ***Review the STD 817. If it is determined to be complete and accurate, authorize payment of the withhold.***
- ***If the STD 817 is late or incomplete, department must send the prime contractor a cure notice allowing at least 15 days, but not more than 30 days, to meet the Certification of Payments to DVBE Subcontractors requirements.***
- ***If the prime contractor does not comply by the identified deadline, permanently deduct the withhold.***
- ***Retain all records for a minimum of six years.****

10. PROBLEM RESOLUTION/CONTRACTOR PERFORMANCE

Ordering Agencies should first attempt to resolve complaints, issues or disputes informally with the Contractor. If the issue or dispute cannot be resolved by the Ordering Agency, the issue may be elevated to the DGS-PD State Contract Administrator.

AUTHORITY

Charter of the City of Merced, Section 200.

CITY COUNCIL PRIORITIES

As provided for in the FY 25/26 Adopted Budget.

DISCUSSION

The City procures a limited amount of software solutions through competitively solicited cooperative purchasing contracts administered by the California Department of General Services (DGS). In prior fiscal years, the number of DGS contracts utilized for software acquisition was minimal and consolidated under the broader Council-authorized procurement authority for technology hardware. However, as the State has expanded the availability of cooperative software agreements, the portfolio of contracts available for leveraging cost efficiencies has grown significantly.

The Information Technology Department is requesting City Council authorization to waive formal competitive bidding requirements, pursuant to Section 3.04.210 of the Merced Municipal Code, which allows for the use of contracts awarded through a competitive process by another public agency.

Pricing under applicable DGS software contracts will be evaluated and benchmarked against other cooperative purchasing vehicles and prevailing market rates to ensure best-value procurement. Where cost savings can be achieved through the use of DGS agreements, such contracts will be utilized in accordance with the City's purchasing policy. Although past comparative pricing analyses for software have shown a narrow variance in savings, typically between 0% and 1%, as compared to other procurement vehicles. Any opportunity for cost reduction will be pursued to uphold the City's commitment to fiscal responsibility.

Some software vendors do not authorize participation in state cooperative contracts due to the City's relatively modest procurement volume. In such cases, software may be procured through alternative competitive contract mechanisms or vendor-specific agreements, consistent with applicable purchasing regulations.

As this is the first fiscal year in which staff is seeking discrete authorization to expand the number of cooperative contracts available for software procurement, the full extent of future utilization remains undetermined. Nevertheless, enabling access to a broader set of competitively awarded contracts strengthens the City's ability to achieve cost-effective and compliant technology acquisitions.

IMPACT ON CITY RESOURCES

Staff is requesting spending authority not to exceed \$250,000 to accommodate anticipated software purchases across all City departments. Any expenditure exceeding the \$250,000 threshold will require subsequent City Council approval. This authorization does not obligate or encumber funds at the time of approval but grants the City the authority to execute purchases on an as-needed basis.
