21st and Cherry Needs a school zone sign also I would like to try to push for reduce speed being cars go faster than 35 mph they do not stop for crossing guard since school has started my godson and I have almost been hit five times I think it would be in the best interest for everyone that crosses there if there could be a two-way stop or a lit up Crossing the crossing guard and children are in great Danger I've made reports to the Merced Police Department have not received a call back we got an officer to sit for one day again everyone that crosses there are in danger. Thank you for your time. Sincerely, Christine Harnar

Good afternoon,

I am currently processing all Traffic Committee requests for the November 7th meeting, and I am looking for a little more information.

Being that this is a committee, they are looking for calming measure suggestions to be presented when reviewing these requests. For example, "I think we need a stop sign at the intersection of M St & 11th" "The speed needs to be decreased on Donna Drive" and etc. This will help make the process for solution much easier. If you could please elaborate more on that, it would be greatly appreciated.

Please let me know if you have any questions or need me to explain any further.

Amanda Williams
