B. CAL-Card Use

State departments may use the CAL-Card for the payment of invoices. Use of the CAL-Card requires the execution of a Purchasing Authority Purchase Order (Std. 65) in accordance with Article 16, Purchase Execution and must include all required documentation applicable to the purchase.

The CAL-Card is a payment mechanism, not a procurement approach and, therefore, does not relieve State departments from adhering to all procurement laws, regulations, policies, procedures, and best practices, including those discussed in the State Contracting Manual (SCM) Volume \*2\*. This includes but is not limited to the application of all sales and use tax laws, rules, and policies as applicable to the purchase.

#### 43.RECYCLED CONTENT

State departments are required to report purchases in many product categories. While this contract does not contain any reportable products at this time, Departments may request the Contractor to validate that their purchase does not contain any recycled content.

#### 44.SB/DVBE PARTICIPATION

The Small Business (SB) and Disabled Veteran Business Enterprise (DVBE) certifications and percentages for the Contractor and subcontractor(s) are listed below. State departments can verify that the certifications are currently valid at <u>The State of California</u> <u>Certifications webpage</u> (https://caleprocure.ca.gov/pages/PublicSearch/supplier-search.aspx).

Name	Prime or Subcontractor	OSDS Certification #	SB Percent (%)	DVBE Percent (%)
Shade & Partners	Subcontractor	1747904		ed per order – d below

State departments must identify subcontractors on individual purchase documents whenever subcontractors have been identified.

Individual orders may have no applicable participation or may have participation greater than that of the total contract commitment. Ordering agencies must verify the participation amount with the Contractor. The exact participation percentage levels for each purchase order will be determined on an order-by-order basis in cooperation with the Contractor prior to submittal of a Purchasing Authority Purchase Order (STD 65).

Any irregularities or concerns regarding prime or SB/DVBE subcontractor responsibilities are to be immediately documented and reported to the State Contract Administrator for further investigation. Information provided to the State Contract Administrator includes, but is not limited to:

- Copy of executed purchase document
- Value-added service description
- Work performance issue or concern
- Department contact name, email, and phone number

Departments should keep track of their SB/DVBE participation levels on orders. However, departments may request a monthly report from the Contractor which will provide the SB/DVBE participation levels on purchase orders.

#### **45.CERTIFICATION OF PAYMENTS TO DVBE SUBCONTRACTORS**

In accordance with the State Contracting Manual, Volume 2, Section 1203.1, DGS-PD has prescribed an alternative mechanism for enforcing the DVBE subcontractor payment certification requirement on this Statewide Contract. State departments shall not collect a

certified Prime Contractor's Certification – DVBE Subcontracting Report (STD. 817) from the Contractor. During the contract term, and upon completion of the contract for which a DVBE subcontractor commitment was made, DGS-PD will require the Contractor to certify that all participation commitments and payments under the contract have been made to the DVBE.

#### 46. BIDDER DECLARATION/COMMERCIALLY USEFUL FUNCTION (CUF)

The DGS-PD, as the awarding department, has assessed the Contractor and subcontractor certifications and CUF during the solicitation evaluation process. Consequently, when executing purchase documents pursuant to this contract, it is not necessary for State departments operating under statewide contract purchasing authority to request the completion of a Bidder Declaration document or perform additional CUF analysis. The State department should make a notation of this within their procurement file.

Exception: It is the responsibility of ordering departments to confirm CUF when valueadded services are acquired by an ordering department and performed by certified SB/DVBE subcontractors consistent with commitments identified in the table above.

#### 47.TRADE-IN

There is no Trade-In Program associated with this contract.

#### **48.ELECTRONIC WASTE RECYCLING**

The Contractor will comply with the Electronic Waste Recycling Act of 2003 requiring retailers to collect a recycling fee from consumers on covered electronic devices, starting January 1, 2005. California Public Resources Code Section 42463(f) defines a "covered electronic device" as a video display device containing a screen greater than four inches measured diagonally. The fees must be shown on all purchase orders. See the code identified above for more information and exceptions to this definition or go to <u>CDTFA Tax</u> <u>Rates - Special Taxes and Fees</u> (https://www.cdtfa.ca.gov/taxes-and-fees/tax-rates-stfd.htm) for a breakdown of the fees.

#### Enterprise Technology Contracts Ordering Agency Quote Review

The Ordering Agency must ensure that the items being purchased from any Statewide commodity contract are correct. Ordering Agencies are responsible for reviewing all quotes-before they are sent to the DGS-PD State Contract Administrator (SCA) for approval. and having a Statement of Work (SOW) when applicable., then the quotes will be sent back to the Ordering Agency immediately without SCA review and will not be accepted until the proper review has been completed.

#### A sample quote is provided on the second tab below.

Ordering Agencies shall follow the guidelines below when reviewing a quote:

- 1. Make sure the discounts are, at minimum, what the contract states. (check the discounts with the User Instructions on Cal eProcure). Contractors may give you a better discount than offered on the contract but the discount must be, at minimum, the contract-offered discount.
- 2. Create a column on the quote to the far right for Ordering Agency review (unless one is created for you by the Contractor) showing the row number from the MSRP file that the item is found on. If the MSRP does not have a row number (not an Excel formatted MSRP), make a note in the review column that the line item was checked with a page number. The link to the MSRP file can be found on your quote. The row number or page number are in the MSRP file.

If an item is not in the MSRP file, it cannot be purchased until it is added to the MSRP file. The quote must be sent back to the Contractor to correct.

- 3. Check the quantities and calculations. Make sure the Contractor is doing the math correctly and calculating the correct amount.
- 4. Make sure all information is complete on the quote (all columns, correct segment ID's, correct contact information, proprietary services column completed, correct tax percentage (if applicable) etc.).
- 5. Double check with the Contractor to ensure you are getting any applicable SB/DVBE credit for your quote.
- 6. For the purpose of delivery of products, do not combine locations on one quote. Tax rates may vary and should not be on the same quote.
- 7. If your quote contains any professional services (excluding training, installation and/or warranty/support) then your quote MUST have a SOW submitted with the quote for review. The SOW must be written by the Ordering Agency. You may reach out to the Contractor for assistance. Contact your SCA if you require assistance with an SOW format and required information.
- 8. If you have any corrections, you must send the quote back to the Contractor to fix it.
- 9. Repeat steps 1-6 when you receive the corrected quote from your Contractor.

# 10. Once you have a complete and correct quote (with an SOW if applicable) then you can send it to your SCA for review/approval.

11. Do not allow any Contractor and/or OEM terms and conditions to be added to any quote/PO.

- 12. Do not add Department own terms and conditions that are beyond the contract terms and conditions.
- 13. Department Requested OEM Services VS. Proprietary Services:

Department Requested OEM Services are for services that can be conducted by a reseller but the Ordering Agency must have the OEM conduct the service.

Proprietary Services are services that ONLY the OEM can conduct.

If a Department requires OEM services, the Ordering Agency must explain *in their procurement file* why they require these services. *The explanation must be sent in the email to the SCA with the Ordering Agency's quote. Contractors should not be forcing OEM services on the Ordering Agency. This is strictly by Ordering Agency request for a Ordering Agency-specific reason only.* 

If an offered service is proprietary only, it should be marked Proprietary whether the Ordering Agency requests the OEM service or not. In this case, the Department-requested service box should not be marked because the service can only be conducted by the OEM.

If both columns are marked yes, it is incorrect. Only one (1) column should be marked on a quote.
