Subject: PCE Remediation Parkway Cleaners – Compressor Replacement	

On January 12, 2023, P&P staff were onsite doing a teleconference with H2O Engineering staff to troubleshoot the operation of the air sparge trailer located behind the Parkway building. The sparge system was not working at full capacity and it was determined that one of the two compressors had seized and stopped working completely. Both compressors have been in service at Parkway since 2010. H2O Engineering recommended replacing both compressors at the same time to reduce their cost to return a second time. Both compressors are well past the expected service life. P&P is requesting additional budget for 2022/2023 fiscal year to cover the cost for two new compressors.

A scope and budget amendment is hereby submitted for Provost & Pritchard Consulting Group to incorporate the following changes:

PCE Remediation, Job No. 1511-22-001, Phase 02Q – Amendment

Additional tasks associated with workplan.

1. Two new compressors, 100 PSI Max Pressure, 2 HP, 11 CFM, 240 VAC 60 Hz 3 ph installed by H2O Engineering.
2. Project management and administration

The signature below hereby authorizes a change in the time and materials budget for Phase 02Q:

Cost Estimate

TOTAL:	\$19,898.27
