RE: Fee Estimates For the Annual Work Plan, Third and Fourth Quarter 2026 and the First and Second Quarter 2027, For PCE Remediation Project including 1-Hour R Street Site, Parkway, Sunshine, Bel Air, and Simpson's Dry Cleaners, City of Merced

Dear Mr. Jordan,

At your request, Provost & Prichard Consulting Group (P&P) is providing you with our fee estimate to provide continuing remedial support including continued operation, maintenance (O&M) at the Parkway site of the SVE system and continuing remedial support and operation and maintenance (O&M) at the Sunshine site. Costs are based solely on the tasks listed in the City's Annual PCE work plan which will be submitted to the RWQCB by May 1, 2026 and the City's preset budget for the project. Additional work scopes can be conducted as requested.

The proposed work in 2026/2027 at the Parkway site continued operation of the SVE for the period of one additional year will be conducted with monthly monitoring and periodic well field balancing for increase PCE removal. Quarterly sampling of the SVE wells vapor connected to the SVE system will help balance the system to remove the maximum amount of PCE possible.

The PCE impacts at the Sunshine site is widespread and not all impacted wells are connected the SVE system. Quarterly sampling of the SVE wells vapor connected to the SVE system will help balance the system to remove the maximum amount of PCE possible. The system has been extracting gasoline vapors from the subsurface and the system will be monitored and operated to minimize TPH-G removal.

This project Fee Estimate is based on our 2026 Fee Schedule (attached).

LIMITATIONS

P&P offers various levels of investigative, engineering and design services to suit the varying needs of our Clients. Although risk can never be eliminated, more detailed and extensive investigations yield more information, which help understand and manage the level of risk. Since detailed investigation and analysis involves greater expenses, our Clients assist with determining levels of services that will provide adequate information for their purposes at acceptable levels of risk. Acceptance of this proposal indicates the City of Merced has reviewed the description of work and determined you do not need or want a greater level of services than that being proposed. Any exception should be noted and may result in high fees.
