Tell us about yourself, and why you are applying for this particular Board or Commission:

I am a transplant to Merced city and county. I am establishing myself within the community, and have set on path to establish roots in the city. I feel like this board is very unique in its duties and responsibilities. I appreciate the transparency that this commission provides with keeping checks and balances in regard to fiscal distributions, much like the judicial system, where one can be judged by a group of their peers I feel that this commission provides the opportunity for citizens to help bring balance to those in power. I am eager to provide a very non-biased, and non-partisan point of view in regards to helping set financial expectations while maintaining the best interest of the citizens of Merced.

Please list your current employer and relevant volunteer experience.

I am currently employed by HopSkipDrive who's mission is to provide safe and reliable transportation for all including youth. I help run and maintain the trust and safety department, which is responsible for maintaining platform safety. I work closely with other departments, and ensure that safety is at the forefront of everything that we do. With that in mind, part of my job duties do include maintaining fiscal responsibility, while still providing the safest platform in the industry. I also have volunteer experience with pride centers, and I'm currently in the process of becoming a court appointed special advocate (CASA) for Merced county.

What is your understanding of the roles and responsibilities of this Board or Commission?

From my understanding , this is a special commission that meets every two years based on measure L. It is my understanding that this commission will be responsible for setting stipend limits for Merced city Council as well as the mayor. Once the parameters are set based on the commission's recommendations, city Council can vote to accept set parameters or decrease the stipend however, they do not have the authority to increase their own stipend.

Do you have experience or special knowledge pertaining to this Board or Commission?

Through most of my professional career, I have been involved in one way, or the other with helping sets spending limits as well as distribution of funds or services. My first time in this role was approving scholarships for afterschool programs. From there I have worked as a service coordinator, providing and distributing services for people with cognitive and physical disabilities. Within this role, I was responsible for ensuring that all service costs were fair for vendors as well as the people served.

Any other comments you would like to add that may assist the City Council in their decision?

I am excited for the possibility to serve on this commission. I feel that Merced positioned themselves in a very unique way to help continue to ensure transparency and fairness, while holding council members accountable. I think I would be a perfect fit for this role, I am able to meet all commitments and have the flexibility to attend both of the hearings required to set the stipends.
