**Findings and Considerations**  
**Planning Commission Resolution #5000**  
**Commercial Cannabis Business Permits #22-02R**

**FINDINGS/CONSIDERATIONS:**

**General Plan Compliance and Policies Related to This Application**

- A) The proposed project complies with the General Plan designation of Thoroughfare Commercial (CT) and the zoning classification of Thoroughfare Commercial (C-T) with approval of a Commercial Cannabis Business Permit.

**Land Use Issues**

- B) The subject site is more than 1,000 feet from any schools and more than 600 feet from any day care centers, youth centers, libraries, or public parks that are currently in existence, as is required by Section 11362.768 of the Health and Safety Code and Section 20.44.170(E)(3)(f) of the Merced Municipal Code (MMC) (Attachment F of Staff Report #22-840).

**Merit Based Scores and Ranking of Application**

- C) The City of Merced received eleven (11) applications for retail cannabis dispensaries in January 2022. Nine (9) applications passed Phase 1 review, succeeding in qualifying for Phase 2 Merit-based review with the Selection Panel, consisting of the City Manager, Police Chief, and Director of Development Services. Those nine (9) applications were reviewed and scored based on merit-based criteria established by the City Council.

A total score of 100 points was possible for each application. Points were awarded based on non-discretionary elements within the applications (a total of 78 points possible), and a total of 22 possible points were reserved for the members of the Selection Panel to award at their discretion based on any outstanding features contained in the application that went above the minimum requirements of the commercial cannabis business permit process. The total scores of the reviewers were divided by three for an average score. The applications were ranked based on that average score. The Selection Panel ranked Culture Merced on Motel Drive, Inc. (Culture Merced) at Number 1 out of 9 places, with an average score of 95.33, the full scoring sheet for this application can be

found at Attachment H of Staff Report #22-840. A Summary of Scores for all the applications can be found at Attachment G of Staff Report #22-840.

### **Proposed Operations**

- D) The proposed dispensary will offer the retail sale of both medicinal and adult-use cannabis products, along with delivery services. The proposed hours of operation within the dispensary shall be daily from 8:00 a.m. to 10:00 p.m., with delivery to be from 9:00 a.m. to 7:00 p.m. Culture Merced anticipates a staff of twenty-five (25) employees, 4 managers, and at least two (2) security guards. Per their own projections, Culture Merced anticipates an average of 250-300 customers per day; their staff will grow as needed.

The proposed business owners plan a 6-month timeline to full build-out following approval of this cannabis business permit, with the bulk of the build-out to occur within the first 4 months. Most of their staff is anticipated to be hired within the final 2 months, prior to the grand opening.

### **Deliveries**

- E) When a scheduled delivery occurs, the inventory manager will receive a notification through the application Treez and will verify the invoice and proceed to follow all State and local requirements of process. Delivery times will occur within the hours of 9:00 a.m. and 7:00 p.m. Per City requirements, no more than \$3,000 worth of products shall be in the vehicle at any time. All deliveries are entered into a manifest with controls to ensure proper delivery to the customer. Deliveries are only made to qualified purchasers and to a qualified address.

### **Traffic/Circulation**

- F) With consideration that this project is proposed on a site within an existing building that has existing access to the City's roadway infrastructure and conforms to the current zoning and land use designation, no concerns related to traffic, or circulation have been raised in relation to this project.

### **Site Plan/Parking**

- G) The applicant is proposing to use the entire space of the existing building at approximately 3,520 square-feet (SF). Ingress to the site is located off Motel Drive with circulation directed out onto Pine Street. The City's

EXHIBIT B

OF PLANNING COMMISSION RESOLUTION #5000

Zoning Code requires one space per 300 SF of floor area for retail use. For this site, the floor area would qualify for approximately 2,040 SF (including the sales floor and the reception area), therefore, the minimum required parking for this site would be 7 spaces. Per the provided site plan found at Attachment C of Staff Report #22-840, the site has a total of 14 existing parking spaces (this includes 4 accessible parking spaces). The site meets and exceeds the City's parking requirements for this use and shall comply with the requirements regarding bicycle and loading spaces per the Ordinance sections identified in Attachment A of Staff Report #22-840 (Conditions #28, 29, and 30). The Building Department has identified concerns with regards to the accessible parking and requests that plans show the installation of a clear and safe path of travel from the accessible parking spaces to the main entrance, per the California Building Code (Condition #28).

#### **Neighborhood Impact/Interface**

- H) The subject site is within the Thoroughfare Commercial (C-T) zone, in between two hotels and across the street from single-family homes with the front of the dispensary facing away from the homes and set back approximately 180 feet from the northern property line of the subject site (Attachment B of Staff Report #22-840). The dispensary will be making improvements to the interior and exterior of the building and site as well as bringing a substantial security presence to the area (see Findings I and K below). Based on these factors, City staff believes the dispensary would have minimal negative impact on the surrounding area.

A public hearing notice was circulated in the Merced County Times and mailed to property owners within 300 feet of the subject site three weeks prior to this public hearing. As of the date that this report was prepared, staff has not received any comments from the community about this project.

#### **Exterior Elevations**

- I) The applicants have proposed to upgrade the exterior of the building as well as improvements to the interior floor plan, plans to be submitted to the City at a later date (Attachment E of Staff Report #22-840). See photographs at Attachment D of Staff Report #22-840 that depict the current building elevation and parking areas along with a rendering of the proposed façade.

### **Signage**

- J) Exterior signage shall be limited to one wall sign not to exceed twenty (20) square feet in area. Interior signage or advertising may not be visible from the exterior. No temporary signs including, but not limited to, banners and A-frames, nor window signs are allowed. Design to be reviewed at building permit stage (Condition #31).

### **Safety/Security**

- K) The applicant's security plan includes the following provisions:
- Entire property, including parking areas to be under video surveillance 24/7 of at least 1920X1080p (2 MP) resolution, 20 frames per second (FPS), and up to 360-degree field of view (Attachment E of Staff Report #22-840)
  - Video surveillance systems will use removable hard-drives and rack-mounted servers for extensive video storage, made available to the City Police Department when requested.
  - Electronic access controls on all the doors
  - At least two employees will be on-site at all times during regular business hours from opening to closing
  - At least two security guards, hired from a licensed security company, shall be present onsite 24/7, working in 8 and 12-hour shifts
  - Windows will be secure and opaque with a break strength of 400 lbs/inch to protect against breakage
  - 3SI SecurityPac dye packs will be placed strategically to deter burglary and theft
  - Emergency remote panic alarm buttons will be strategically and discreetly located within the dispensary
  - All entrances and windows will be illuminated after sundown to a minimum of 500 lux, with cones of illumination to be oriented in a downward overlapping fashion in case of bulb failure. Motion-activated lighting to be installed at 1,000 lux.
  - All employees will be given keycards with varying and limited access, to be supervised by the designated Security Manager.
  - Secure storage areas will be equipped with two-factor authorization including keycode and card readers.

All security practices shall comply with the standards contained in MMC Ordinance Section 20.44.170 E (3) (Condition #32).

This is not an all-inclusive list of security measures, but simply highlights a few areas. The applicant's security plan meets or exceeds the City's requirements and has been reviewed by the Police Chief through the Merit-Based review (Finding C). Culture Merced proposes to contract with a local, private security firm to ensure security guards shall be present during all operating hours.

### **Ownership**

- L) Culture Merced has eight (8) owners with 5% or more interest in the proposed business, with four out of the eight owners being residents of Merced. In order of ownership from highest to lowest:

- Jamie Godinez, 51%
- DBJ La Mesa Corp (Devon Julian), 19%
- Alejandro Calleres, 5%

- Barigye McCoy, 5%
- Victor Mancilla, 5%
- Jared Ruscoe, 5%

According to their application, Culture Merced has at least 10 years of experience in the commercial cannabis industry, with 6 stores open and operating in places such as Long Beach, Calexico, Banning, and Jurupa Valley. The owners have a combined 13 years of experience of management of a legal retail cannabis facility (at least 3 of those years with general retail management).
