Re: Merced Regional Airport Proposed Airport Capital Improvement Plan (ACIP)

Dear Katherine,

It was a pleasure to talk with you and your colleagues earlier in the month regarding the Merced Regional Airport proposed Airport Capital Improvement Plan (ACIP). It was an informative and helpful conversation and we appreciated the opportunity to meet with the leadership team for the San Francisco Airports District Office. I am pleased to forward the revised proposed ACIP for the Merced Regional Airport and look forward to the opportunity to discuss the proposal with you.

As you will note, the initial year of the ACIP includes the funding request for rejuvenated markings at the airport as identified in the FAA Part 139 inspection that took place on November 17-19, 2014. It is our understanding that this type of project is eligible for funding pursuant to regulations governing non-primary airports (Table 3-2, AIP Handbook).

The ACIP first year proposal also includes the pavement assessment that we discussed that will inform the refinement of future pavement improvement grant requests. Please note also that we had considered inclusion of a replacement ARFF vehicle but have

Page 2

deferred that request to a future ACIP while efforts are underway to identify a back-up vehicle through mutual aid. We intend to include the purchase of a new ARFF vehicle in a request beyond 2020.

We look forward to working with you and your colleagues and, again, thank you for the cordial meeting on December 10, 2014, at your office in Brisbane.

With best wishes for the New Year.

Cordially,

Janet E. Young
Interim Manager
Merced Regional Airport
Office: 209-385-6873
Cell: 209-564-0120

Enclosure

Airport Name		Merced Regional Airport (MCE)	Fiscal Year	2015	
Shown On ALP	Project Type*	Project Description	Federal Share	Local Share	Total
Yes	P	1. Pavement Maintenance and Management System (PMMS)	\$135,000	\$15,000	\$150,000
Yes	D	2. Runway 12-30 Pavement Maintenance - Pavement Remarking - Design and Construction	\$478,260	\$53,140	\$531,400

* D - Development; P - Planning; E - Environmental

PROVIDE THE FOLLOWING DETAILED INFORMATION FOR PROJECTS ANTICIPATED WITHIN 1-2 YEARS

Detail Project Description (Square/Lineal Footage or Length/Width)

1. The current condition of the pavements at MCE will be assessed so as to predict the remaining useful life and optimize the pavement service life by adopting the most economical and efficient maintenance and rehabilitation strategies. A 3-phase pavement rehabilitation plan will be developed. PCN numbers will also be determined as part of the PMMS effort. Finally, a taxiway maintenance and rehabilitation plan will be developed in consideration of addressing non-standard taxiway conditions.

2. Per Part 139 inspection report concerns, the Runway 12-30 pavement will be remarked (pavement maintenance) per eligibility requirements for nonprimary airports (see Table 3-2, AIP Handbook). This project includes both design and construction.

Project Schedule (Anticipated date for bids or negotiated prices, consultant selection for planning or environmental projects, length of construction or design, planning or environmental process)

1. 2015
2. 2015
