Liquidity requirements shall be ensured by maintaining sufficient investment amounts in, Local Investment Agency Fund, Savings, or any maturing investment.

4.3 Return on Investments: The investment portfolio should at a minimum regularly exceed the average return on three-month U.S. Treasury bills, or the average rate on Fed funds, whichever is higher. These indices comprise a minimum standard for a rate of return that is considered a benchmark for riskless investment transactions. Returns above this threshold will be sought when consistent with risk limitations identified herein and prudent investment principles.

With the use of daily cash balance reports and cash flow projections available funds will be invested as near as possible to 100%.

5.0 Delegation of Authority:

The finance officer shall be responsible for developing and maintaining administrative procedures for the operation of the program which are consistent with these policies.

6.0 Ethics and Conflicts of Interests:

Any employee involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Employees and investment officials shall disclose to the city manager any material financial interests in financial institutions that conduct business within this jurisdiction, and they shall further disclose any large personal financial/investment positions that could be related to the performance of this jurisdiction's portfolio. Employees and officers shall subordinate their personal investment transactions to those of this jurisdiction, particularly with regard to the timing of purchases and sales.

Any such sales will only be made upon the recommendation of the finance officer and approved by the city manager.
