Re: Letter of Support for Central Valley Coalition.

Central Valley Coalition,

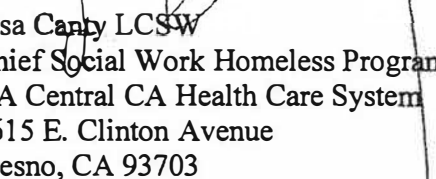

VA Central CA Health Care System is pleased to provide this letter of support for Central Valley Coalition's Gateway Terrace II Project. Our organization has a long history of working with the populations that are the focus of this project.

We have worked with Central Valley Coalition previously and have developed a strong relationship with your organization. In a community and Valley with so much need, we appreciate that your organization has deep roots and significant successes among the people we serve.

The implementation of the Gateway Terrace II Project is innovative and holds great promise in effectively connecting with many of our Veterans. We are excited about the opportunities that such a program makes possible.

VA Central CA Health Care System supports Central Valley Coalition in its efforts to find new ways to deliver the services to the people who desperately need them.

Sincerely,

Lisa Canby LCSW
Chief Social Work Homeless Program
