I am a veteran and currently using my G.I bill attending San Jose State University, and I am two semesters away from obtaining my degree in Environmental Studies with a concentration in Environmental Impact Assesment (EIA). Any other comments you would like to add that may assist the City Council in their decision?

I believe that a general plan is one of the most important things to assist in the successful development of a city. It is essential to follow the vision of a general plan and at the same time know when it is best for the residents of the city to deviate from the plan. I hope to be apart of the board and help Merced achieve its vision with the guidelines set by the General Plan.
