OVERVIEW

In January of 2017, a new California state law took effect that encourages homeowners to build "granny flats." These housing units go by many names (backyard homes, secondary units, garage apartments, and the one we use here: accessory dwelling units or ADUs). Most homeowners can imagine many ways to use a rental unit on their property—for an elderly relative, extra income, a caregiver, or a grown child living at home. But many homeowners do not know that the City of Los Angeles has made it easier than ever to add a legal rental unit to a single-family home. Even still, the planning and building process is complicated. This handbook serves as a guide so homeowners can decide if it is possible to build an ADU on their property. It provides preliminary answers to key questions and shows the steps the City will require, and what the design and construction of an ADU will entail.

This guidebook helps you to get started and to prepare the basic information you will need to give the City (at the Dept. of City Planning and the Dept. of Building and Safety), your lender, your designer, and your contractor. When you have taken photographs, measured your backyard, and sketched your idea for an ADU, as this guidebook illustrates, you will be well on your way.

There are architects, builders, and planners ready to help you at every stage. This guidebook does not replace their services, but it does provide helpful advice, websites, phone numbers, and office locations where your more specific questions can be answered. Because ADU rules can change, check the date of the guidebook in your hands (at the bottom of the page). More up-to-date information will be available from the City Departments of Planning and Building and Safety.

Good luck designing and building your ADU!

NOTE: Since every ADU project will be unique, there are important questions that we cannot answer, for instance: How much will it cost? How long will it take to build? In addition, this guidebook does not substitute for required review by City agencies. All questions should be directed to the Dept. of City Planning and the Dept. of Building and Safety. Please see page 19 for contact information.

INTRODUCTION

WHAT IS AN ADU?

An Accessory Dwelling Unit (ADU) is a residential unit that can be added to a lot with an existing single family home. ADUs can be detached (a separate building in a backyard), attached to or part of the primary residence, or a garage conversion. ADUs are independent rental units that have their own kitchens, bathrooms, living areas, and entrances.

WHY BUILD AN ADU?

ADUs can provide additional space for caregivers, grown children, elderly parents, or renters. Because ADUs are rental units, they produce additional household income. "Empty nesters" can stay in their neighborhoods by moving into a smaller ADU and renting their larger existing home to pay the mortgage. An ADU can be built to house a relative or caregiver. There are many reasons for building an ADU on your lot.

WHAT IS THE LAW FOR ADUS IN THE CITY OF LOS ANGELES?

The new state law (AB 2299, effective January 2017) applies to LA and makes it easier to build an ADU on a single family lot. The state law encourages the construction of accessory units because the City needs more housing. You can read the entire law at the California Legislative Information website by searching California AB 2299. Please be aware that the City may pass new laws that will affect ADU construction.

LEGEND

HOW TO USE THIS HANDBOOK

This handbook provides general guidelines for property owners who want to add an ADU to a lot that already contains an existing home. It describes the various physical forms that ADUs can take, like garage conversions or backyard homes. Please be aware that other city ordinances apply that could impact your process. Consult the Dept. of City Planning and the Dept. of Building and Safety for site visitation. See the Appendix for contact information.

THIS HANDBOOK ANSWERS THE FOLLOWING QUESTIONS

- Can I add a unit to my lot?
- What could my unit look like?
- Can I convert my garage?
- What are the necessary steps to build an ADU?

The "FAQ" SECTION contains additional information to help understand issues at play and answer common questions. This handbook is a first step to understand how an existing property might accommodate a new unit. However, it is not a replacement for hiring a professional to help plan your project.

CAN I ADD A UNIT TO MY HOME?

☒ CHECK ALL THAT APPLY

1. I OWN A SINGLE FAMILY HOME

2. MY HOME HAS...

EXTRA SPACE IN MY BACKYARD

A GARAGE IN MY BACKYARD

ROOM THAT CAN BE CONVERTED INTO A UNIT WITH ITS OWN ENTRANCE

3. MY HOME ...

IS LOCATED WITHIN 1/2 MILE FROM PUBLIC TRANSIT?

HAS ROOM AND ACCESS FOR AN ADDITIONAL PARKING SPACE

SEE PARKING REGULATIONS P. 12

IF YOU CHECKED ALL THE BOXES YOU MAY BE ABLE TO BUILD AN ADU!

TYPES OF ADUS

IT MAY LOOK LIKE...

I WANT TO...

ADD A DETACHED UNIT ON MY LOT (SEE PAGE 6)

ADD AN ATTACHED UNIT TO MY HOME (SEE PAGE 7)

CONVERT MY BACKYARD GARAGE (SEE PAGE 8)

ADD AN ATTACHED UNIT TO MY BACKYARD GARAGE (SEE PAGE 9)

NOTE: Parking restrictions apply, please see pg.12 for more information.

DETACHED UNIT WITH EXISTING GARAGE

ADU REQUIREMENTS

Max. of 1200 sq ft
See also FAQ 8 p.18

5 ft min. from side and rear property lines
10 ft min. between main house and ADU

See parking p.12

BUILDING AN ADU CPTLAE

ATTACHED UNIT AS ADDITION TO HOUSE

ADU REQUIREMENTS

No more than 50% of existing house and max of 1200 sq ft
See also FAQ 8 p.18

Side and rear setbacks as required by zoning

See parking p.12

ATTACHED UNIT VARIATION WITHIN HOUSE

Size cannot exceed 50% of existing house; no other maximum size requirement applies to this variation

VERSION 10 | SUMMER 2017

BACKYARD GARAGE CONVERSION

ADU REQUIREMENTS

Max. of 1200 sq ft
See also FAQ 8 p. 18

No change to existing setbacks

See parking p. 12
If replacement parking is required, it may be uncovered.

BEFORE

AFTER

BACKYARD GARAGE ATTACHED UNIT

ADU REQUIREMENTS

Max. of 1200 sq ft
See also FAQ 8 p. 18

5 ft min. from side and rear property lines (required only for the ADU, not the garage itself)

10 ft min. between main house and ADU

See parking p. 12

ATTACHED UNIT VARIATION ABOVE GARAGE

EXAMPLES OF ADU FLOOR PLANS

NOTE: The following are sketches showing possible room arrangements, but not plans for construction.

450 SQ FT - 1 BEDROOM, 1 BATHROOM

700 SQ FT - 2 BEDROOMS, 2 BATHROOMS

1200 SQ FT - 3 BEDROOMS, 2 BATHROOMS

CHECKING FOR ELIGIBILITY

FIND YOUR LOT ON THE LA RESIDENTIAL ZONING MAP (ZIMAS)

Every neighborhood in Los Angeles falls under specific zones. To build an ADU, your current house must be located in a residential zone, and most likely in a single-family residential zone. ADUs are permitted in all single-family zones. Any lot in these zones, regardless of its size, can add an ADU if it will fit. Your lot must have an existing house, only one ADU per lot is permitted, and the ADU cannot be sold separately from the house. An ADU must meet additional site requirements as well as building construction requirements as described in this booklet.

The above map of LA shows the location of all single-family parcels in the City and gives you an idea of whether your home is located in a single-family zone. Most standard lots are 3,500 sq ft or more, and may comfortably fit an ADU. Lots under 3,500 sq ft may face feasibility issues. Visit ZIMAS.cityofla.org and enter your address to check lot eligibility.

PARKING

HOW MUCH SPACE WILL I NEED FOR PARKING?

Many lots already accommodate two parking spaces in a garage or carport. When you add an ADU, you may need to fit one extra parking space on your lot. If an additional space is required, the space may be covered or uncovered.

YOU MAY NOT NEED ADDITIONAL PARKING IF:

1. ADU is located within one-half mile of public transit.
2. ADU is located within an architecturally and historically significant district.
3. ADU is part of the existing primary residence or an existing accessory structure.
4. on-street parking permits are required, but not offered to occupant of the ADU.
5. there is a carshare vehicle located within one block of the ADU.

These are the five current parking exemptions as of July 2017, but parking requirements may change. Check with the Dept. of City Planning for current requirements.

IS YOUR LOT NEAR TRANSIT?

Your lot may not need additional parking for your ADU, leaving room for open space, a patio, a bigger ADU, etc. If your lot is located within one-half mile of transit (defined as one-half mile from any bus stop or rail station), it should meet the parking exemption. Map II (p. 13) shows that many lots (coded in pink) meet the transit exemption. Verify your specific lot status with the Dept. of City Planning or the Dept. of Building and Safety, particularly since bus stops can move.

Not located near transit? Read about additional parking exemptions in the FAQ section on p. 18.

Google Maps show transit stops. Bring a map like this to the Planning Dept.

BUILDING AN ADU CITYLAB

LOOKS LIKE I CAN ADD A UNIT TO MY LOT! WHAT'S NEXT?

1. COLLECT INITIAL INFORMATION

TAKE PHOTOS OF YOUR LOT

to capture angles that show the available space relative to existing structures

MAKE A SKETCH

of your existing house and yard, showing the location and dimensions of structures on your lot

BRING YOUR INFORMATION

to the pre-application process with the Dept. of Building & Safety.

2. DESIGN + PERMITTING

SUBMIT BUILDING PERMIT APPLICATION

and pay fees

COMPLETE CONSTRUCTION DRAWINGS

BEGIN PRELIMINARY PROJECT DESIGN

and DETERMINE FINANCING

REVISE DRAWINGS

as required by city

BUILDING PERMIT ISSUED

OBTAIN BIDS

FROM CONTRACTORS

3. CONSTRUCTION

CONSTRUCTION INSPECTIONS

BEGIN CONSTRUCTION

SELECT CONTRACTOR

CERTIFICATE OF OCCUPANCY

DONE! YOUR NEW UNIT IS READY

BUILDING AN ADU CITYLAB

TIPS FOR DRAWING YOUR EXISTING LOT

Measure and draw the shape of your lot.

Make notes of measurements on the sketch in terms of feet and inches.

As precisely as you can, draw the outline of your current house with measurements.

Measure and draw other permanent structures where they exist on your lot, such as a garage.

Mark the location of the driveway, major trees, and all structures (even if they will be demolished).

SKETCHING AN ADU ON YOUR EXISTING LOT

Make a copy of the drawing of your existing lot and sketch a floor plan of the ADU you want to build.

Show where you would park a car(s).
Tip: a typical parking space is 8ft 6in x 18 ft

Show any streets and alleys adjoining your lot.

Measure and block out 5 feet from each property line (for the setbacks).

Remember to leave at least 10 feet between the main house and your ADU, and avoid placing any structure(s) in the side and rear setbacks.
