4.3 Zoning Ordinance Amendment #19-01, initiated by the City of Merced. This application involves changes to the Merced Zoning Ordinance (Title 20 of the Merced Municipal Code) which would amend Merced Municipal Code Section 20.44.170 ("Commercial Cannabis Businesses"). This amendment would add a fifth permit for retail cannabis dispensaries to the allowable number within the City of Merced; the amendment also clarifies and modifies various parts of the permitting process for cannabis businesses.

Principal Planner HREN reviewed the report on this item. For further information, refer to Staff Report #19-02.

The Commission asked questions regarding the update to the Ordinance's definition for a school, the addition of the fifth CCBP permit, and clarification on Commercial Cultivation requirements.

Development Services Director McBRIDE addressed the Planning Commission; he explained their options and advised them to modify the recommendation to City Council if they had specific suggestions that they recognized as needing to be addressed.

Commissioner DREXEL voiced his concern of adding a fifth allowable permit before any of the originally approved four permits had opened for business.

Commissioner CAMPER stated unease with a number of changes included in the staff report due to their relation to previous issues regarding specific applications. She gave the addition of the fifth permit and the modification of a parcel as examples.

Principal Planner HREN confirmed that the parcel modifications are not exclusive to one site or application; all applicants would be able to utilize these updates.

Commissioner MARTINEZ asked for clarification on the addition of "full time instruction" to the ordinance's definition of school.

Mr. HREN explained that the addition of "full time" effectively eliminates cases of outliers that hold minimum instruction, like one day a year.

## MITIGATION MONITORING AND REPORTING PROGRAM

This Mitigation Monitoring and Reporting Program (MMRP) has been formulated based upon the findings of the Initial Study/Mitigated Negative Declaration (IS/MND) prepared for the Merced Mall Expansion Project (project). The MMRP, which is provided in Table A, lists mitigation measures recommended in the IS/MND for the project and identifies mitigation monitoring requirements. The MMRP must be adopted when the City Council makes a final decision on the project.

### MITIGATION MONITORING CONTENTS

This mitigation monitoring program includes a brief discussion of the legal basis and purpose of the mitigation monitoring program, a key to understanding the monitoring matrix, a discussion of noncompliance complaints, and the mitigation monitoring matrix itself.

### LEGAL BASIS AND PURPOSE OF THE MITIGATION MONITORING PROGRAM

As stated above, Public Resource Code (PRC) 21081.6 requires public agencies to adopt mitigation monitoring or reporting programs whenever certifying an environmental impact report or mitigated negative declaration. This requirement facilitates implementation of all mitigation measures adopted through the California Environmental Quality Act (CEQA) process.

The City of Merced has adopted its own “Mitigation Monitoring and Reporting Program” ordinance (Merced Municipal Code [MMC] 19.28). The City’s program was developed in accordance with the advisory publication, Tracking CEQA Mitigation Measures Under AB 3180, from the Governor’s Office of Planning and Research.<sup>1</sup>

As required by MMC 19.28.050, the following findings are made:

- 1) The requirements of the adopted mitigation monitoring program for the Merced Mall Expansion Project shall run with the real property. Successive owners, heirs, and assigns of this real property are bound to comply with all of the requirements of the adopted program.
- 2) Prior to any lease, sale, transfer, or conveyance of any portion of the subject real property, the applicant shall provide a copy of the adopted program to the prospective lessee, buyer, transferee, or one to whom the conveyance is made.

### MITIGATION MONITORING PROCEDURES

In most cases, mitigation measures can be monitored through the City’s construction plan approval/plan check process. When the approved project plans and specifications, with mitigation measures, are submitted to the Development Services Department, a copy of the monitoring checklist will be attached to the submittal. The Mitigation Monitoring Checklist will be filled out upon project approval with

mitigation measures required. As project plans and specifications are checked, compliance with each mitigation measure can be reviewed.

In instances where mitigation requires on-going monitoring, the Mitigation Monitoring Checklist will be used until monitoring is no longer necessary. The Development Services Department will be required to file periodic reports on how the implementation of various mitigation measures is progressing or is being maintained. Development Services Department staff may be required to conduct periodic inspections to assure compliance. In some instances, outside agencies and/or consultants may be required to conduct necessary periodic inspections as part of the mitigation monitoring program. Fees may be imposed per MMC 19.28.070 for the cost of implementing the monitoring program.

## NONCOMPLIANCE COMPLAINTS

Any person or agency may file a complaint asserting noncompliance with the mitigation measures associated with the project. The complaint shall be directed to the Director of Development Services in written form providing specific information on the asserted violation. The Director of Development Services shall initiate an investigation and determine the validity of the complaint. If noncompliance with a mitigation measure has occurred, the Director of Development Services shall require appropriate actions to remedy any violation. The complainant shall receive written confirmation indicating the results of the investigation or the final action corresponding to the particular noncompliance issue. MMC Sections 19.28.080 and 19.28.090 outline the criminal penalties and civil and administrative remedies which may be incurred in the event of noncompliance. MMC 19.28.100 spells out the appeals procedures.

## MONITORING MATRIX

The following pages provide a series of tables identifying the mitigation measures proposed for the project. The columns within the tables are defined as follows:

Impact Statement:	Describes the potential impact that could result from implementation of the proposed project.
Mitigation Measure:	Describes the Mitigation Measure (referenced by number).
Monitoring Responsibility:	This column references any City department or public agency with which coordination is required to satisfy the identified mitigation measure.
Monitoring Timing:	Identifies at what point in time or phase of the project that the mitigation measure will be completed.
Verification:	These columns will be initialed and dated by the individual designated to verify adherence to the project specific mitigation.

<b>4.9 HYDROLOGY AND WATER QUALITY</b>				
The project could result in short-term construction-related water quality impacts.	HYDRO-1: To minimize any potential short-term water quality effects from project-related construction activities, the project contractor shall implement Best Management Practices (BMPs) in conformance with the California Storm Water Best Management Practice Handbook for Construction Activity. In addition, the proposed project shall be in compliance with existing regulatory requirements, including the Water Pollution Control Preparation (WPCP) Manual. In addition, implementation of a Storm Water Pollution Prevention Plan (SWPPP) would be required under the National Pollutant Discharge Elimination System (NPDES) to regulate water quality associated with construction activities.
