Background

The City adopted its Cannabis Ordinance in 2018 (current Ordinance #2532, revised in 2023). Since then, nineteen (19) CCBPs for non-retail uses (Cultivation, Distribution, Manufacturing, and Testing) have been considered by the Planning Commission. These permit applications would bring our total up to 21, though some of the permits have since been abandoned.

In August 2022, the Planning Commission heard and approved Commercial Cannabis Business Permit #21-05 to cultivate cannabis for medicinal cannabis-based products at this same location. The license was abandoned in October 2023, due to the interest in pursuing the current application.
