DISCUSSION

At the City Council meeting of April 20, 2020, the City Council engaged in a discussion regarding short-term and long-term considerations for community and economic assistance and recovery given the impacts of the COVID-19 pandemic. Prior to the discussion, Dr. Robert Eyler, Professor of Economics at Sonoma State University, gave a special presentation called "Economics in the Times of COVID-19." The presentation focused on initial trends and impacts caused the COVID-19 pandemic to the local economy.

Additional funding for \$30,000.00 is necessary for services related to responding to the COVID-19 impacts to the local economic base. Services include:

- Launching a website for small businesses to learn of available resources to help sustain their businesses and employees.
- Prepare materials for direct emails to businesses and social media posting on financial resources that may be beneficial to their operations.
- Prepare an application to the Economic Development Administration (EDA) Economic Adjustment funding for preparing a recovery strategy. EDA has funding to support communities with adjustment strategies.
- Arrange meetings and assistance with Dr. Robert Eyler to begin tracking and analyzing the City of Merced's indicators and paths for recovery.
- Respond to COVID-19 assignments as directed by the City of Merced Office of Economic Development.

Chabin Concepts posted the website www.mercedbusiness-COVID19.com [<http://www.mercedbusiness-COVID19.com>](http://www.mercedbusiness-COVID19.com) coordinating efforts and information with the Greater Merced Chamber of Commerce, Merced County Hispanic Chamber of Commerce, and Central California Small Business Development Center. Subsequently, City staff made over 5,000 calls and sent mailers directing businesses to the website. Advertisements were published in the Merced Sun Star and Merced County Times leading employer and employees to visit the website to learn of the resources available from the CARES Act and other organizations.

The economic development consultant will submit an application to the Economic Development

Administration requesting funding to prepare an economic development recovery strategy. Dr. Robert Eyster will supplement and advise the City's economic development recovery efforts by analyzing data and providing recommended actions.

Federal and State agencies and corporations are providing different forms of assistance to local governments and small businesses with rules and regulations regularly changing. Chabin Concepts is mining and evaluating the programs to determine which are best and applicable to the City of Merced and its business clientele.

Staff, with the assistance of Chabin Concepts, anticipates the COVID-19 economic development recovery efforts to be done in two tiers, short-term and long-term.

IMPACT ON CITY RESOURCES

Sufficient funding is available in Fund 001-2002-572-17-00, Economic Development - Professional Services for the First Amendment. A supplemental appropriation is not necessary.
