DISCUSSION

The City last conducted a formal classification study in 1998. Over the last two decades, City staff has attempted to maintain current classifications within the organization as jobs change due to technological advances, regulatory changes, and departmental restructuring as a few examples. In spite of these efforts, many classifications have not been updated since the late 1990's.

In order to manage the process fairly throughout the organization, the Support Services Department is undertaking a citywide classification study. With approximately 170 separate classification, it was determined to hire a professional firm to perform the study. A Request for Proposal (RFP) was prepared seeking proposals from qualified organizations to serve in the capacity of consultant for the City of Merced. The RFP was sent to nine bidders listed below. The deadline for filing proposals was March 15, 2017 at 5:00 p.m. A summary of the Classification Study proposal is attached hereto as Attachment 1. The results of the RFP are set forth below:

Bidder:	Not to Exceed Cost Estimate:

Option 2:

909 hours for a total of \$113,625

A copy of the proposal submitted by Ralph Andersen and Associates is attached for Council to review as Attachment 2. City staff reviewed both firms' proposals and representative from both firms were interviewed.

References listed were contacted and no unfavorable information was provided about either bidder. Based on bid analysis of the Director of Support Services and staff it was determined to recommend award to Ralph Andersen and Associates at a not to exceed amount of \$80,000. This amount was calculated to cover any additional costs in the event employees, management, and labor groups required more meetings than were anticipated in the original proposal estimate in Attachment 2.

IMPACT ON CITY RESOURCES

No additional appropriation is needed.
