DISCUSSION

The City of Merced applied for an Active Transportation Program (ATP) Grant and was awarded funds for the design and construction of a pedestrian crossing on Highway 59 over the BNSF Railroad Crossing. The awarded grant was for \$945,000, of which \$834,000 was for construction, \$106,000 was for design, and \$5,000 was for environmental and Right-of-Way.

The City of Merced has entered into a master agreement with Caltrans covering Federal-aid projects in order to utilize certain Federal funds made available through legislation enacted by the Congress of the United States for use on local transportation facilities. The agreement covers projects that use Federal funds, which include, but are not limited to, the Regional Surface Transportation Program (RSTP), the Congestion Mitigation and Air Quality Improvement Program (CMAQ), the Transportation Enhancement Activities Program (TEA), the Highway Bridge Replacement and Rehabilitation Program (HBRR), and the AB1475 Safe Routes to School Program.

In addition to the master agreement, we must execute a specific supplemental agreement for each individual project. Caltrans has sent us Program Supplement No. N028 covering use of \$5,000 in Federal funds for the environmental phase of the Highway 59 Multi-Use Pathway Crossing Project. There is no local match for this phase of the project and no General Funds will be used.

Reimbursements can be claimed through the Caltrans accounting office only after execution of the Supplemental Agreement. We, therefore, request Council approval of the Program Supplement, accepting the Federal funding for ATPL-5085(045).

The City Attorney has reviewed and approved the agreement and has prepared a resolution for adoption.

IMPACT ON CITY RESOURCES
