*Report Prepared by: Amanda Williams, Development Services Tech, Engineering*

**SUBJECT:** REQUEST #24-17 Requesting Flashing Light Alerting Drivers That School Children Are Crossing, Stop Signs To Slow Down Traffic, Or A Left Turning Signal To Prevent Speeding Cars That Are Turning To Go Before Or After Children Safely Cross The Street.

### REPORT IN BRIEF

Citizen states that the intersection at Alicia Reyes Elementary School, off of N St. and W. Childs Ave., currently does not have a left turn signal light at any of the 4 lights. During drop off and pick up times, when traffic increases the most, many children walk home and cross the street while vehicles speed through and pose a safety risk to the children. There should be a flashing light alerting drivers that school children are crossing, stop signs to slow down traffic, or a left turning signal to prevent speeding cars that are turning to go before or after children safely cross the street. Citizen also states that a crossing guard would help but would not be enough.
