DISCUSSION

The owners of the property at 1610 West 16th Street (Attachment 1) has requested the City abandon a 908-square-foot sewer lift station easement, a 980-square-foot temporary construction easement, and a 2,791-square-foot public utilities easement generally located on the west end of their property (Attachment 2). The abandonment of this area would allow the owners to use the land for other uses and not be limited to the restrictions placed on it by the easements.

City staff has reviewed the request and determined the easements as they currently exist are not needed. However, easements are still needed for a possible future sewer lift station and for a sewer line that runs through the property. Therefore, the owners have agreed to a revised easement area (Attachment 3).

The City Council's action would be to adopt the resolution at Attachment 4 setting the public hearing for Vacation #20-01 for Monday, May 18, 2020.

IMPACT ON CITY RESOURCES

There would be no impact on City resources as a result of this action.
