## **CITY COUNCIL PRIORITIES**

Public Safety as provided for in the 2017-18 Adopted Budget.

## **DISCUSSION**

On July 1, 2017, the MFD submitted a grant application in the amount of \$55,000 through the 2017-18 Grant Cycle under the Cal OES Hazardous Materials Emergency Preparedness (HMEP) Planning Subgrant Program. No in-kind match is required nor needed for this grant.

The purpose of the grant is to increase effectiveness in safely and efficiently handling hazardous materials incidents and encouraging a comprehensive approach to emergency training and planning by incorporating the unique challenges of responses to transportation situations. To increase the safety of its community, the MFD intends to hire a consultant to conduct commodity flow studies and/or other Hazardous Materials transportation hazard analyses to determine the frequency and quantity of Hazardous Materials shipments being transported through our community. The study will also assess whether the MFD is appropriately trained to respond to incidents involving bulk shipments of energy products as well as other hazardous materials. MFD will bring an Agreement to hire a consultant to the City Council for consideration of approval at a future meeting. Using the consultant's study and assessment, the MFD will identify hazardous material planning needs in the following areas:

- ☐ Hazardous material response equipment deficiencies/needs.
- ☐ Hazardous material response training, preplan incident response.
- ☐ Hazardous material transportation incident prevention, response, and mitigation.
- ☐ Identify the need to establish a hazardous material response team or develop a multi-agency team.
- ☐ Identify potential effectiveness of mutual aid to be received.

## **IMPACT ON CITY RESOURCES**

There is no cost to the City, as grant funds fully subvent this project and no match is required.
