DISCUSSION

The work to be done consists, in general, of applying Type II Slurry Seal to four (4) different locations in various areas within the City of Merced. Contract items include traffic control, roadway preparation, installation of the slurry seal, and street sweeping.

The following street segments are included in this project:

- Merced Avenue from Motel Drive to Parsons Avenue
- Canal Street from Childs Avenue to 16th Street
- 26th Street from M Street to G Street
- El Portal Drive from G Street to Joerg Avenue

Staff prepared plans and specifications, and the project was re-advertised for bids. Bids were opened on July 30, 2019, with only one bid submission:

1. VSS International, Inc. (Sacramento, CA)	\$ 296,000.00
---	---------------

The engineer's estimate for construction was \$300,666.24

The following is the proposed budget for the project:

Construction	\$ 296,000.00
Contingency	\$ 29,600.00
Engineering, Testing & Inspection	\$ 8,880.00
TOTAL:	\$ 334,480.00

This project will require the contractor to notify property owners by door hangers and barricades of when work will be done and to have vehicles removed from the street. City staff will provide the public with ample advance notification(s).

History and Past Actions

On April 15, 2019, Council approved this project as part of the 2019/2020 Road Repair and Accountability Act (SB1) Project List.

This project was previously advertised for bids in May 2019, with an original bid opening date of June 18, 2019. Unfortunately, no bids were received at that time and staff re-issued the project for bid in June.

IMPACT ON CITY RESOURCES

This project was established as a Capital Improvement Project to be funded by SB1 and account 450 -1104-637.65-00-119064 contains sufficient funding to complete the project.
